

POWERSPORTS 2021

OTR WHEEL ENGINEERING, INC. (OTR) is your global partner for high-quality, engineered, off-the-road tires, wheels, assemblies and accessories. Thank you for choosing OTR as a resource to help find the right solution for your vehicle or machine. We are proud to supply well-known original equipment manufacturers and aftermarket customers in the Powersports market, garnering a reputation as a solutions provider, using customer feedback to develop innovative products and services that solve problems and add value.

COMPANY OVERVIEW

OTR is a multinational enterprise with over 1,000 employees dedicated to supporting customers around the world. Core markets include Powersports, Lawn & Garden, Industrial, Construction, Mining, Forestry, Material Handling, Agricultural and Specialty Vehicles.

OTR's global infrastructure comprises 38 manufacturing facilities and warehouses located in the U.S., Canada, Europe, and Asia. Our business model is based not only on developing, manufacturing and supplying market-driven products, but also services such as warehousing, tire mounting, sequencing, tire liner, foam-fill and modular assembly in facilities located near customers. We also support a network of distribution partners servicing local markets with one-stop-shopping for OTR products.

POWERSPORTS

OTR's product line-up for powersports is the result of many years of experience, innovations and a hands-on approach that ensures our products get the job done. Whether you are focused on recreation, the jobsite, comfort and safety or value for the money, OTR's team will help you find the right solution.

TyrLyner®

TyrLyner® is a proprietary material securely applied to the inside of a tire's casing to extend life and enhance safe operation. Its "self-healing" technology ensures the tire is sealed when punctured or cut by objects up to ¼". It's available for RTVs used in worksites (but NOT recommended for high-speed ATV/UTV use). The coating is applied at an OTR facility for customers looking to enhance tire safety and productivity.

GREAT ALL AROUND TIRE

"The 350 MAG is a great all-around UTV/ATV tire. This tire works great on or off road and in multiple terrains. It has a tough 6-ply build to repel the hazards of riding in timbers and other off the road spaces. The tread pattern gives a smooth ride on hard surfaces from lawn to highway. We recommend the 350 MAG to all our customers looking for that great all around tire!"

Rob Desotel, Cedar Rapids Tire

POWERSPORTS

QUICK REFERENCE GUIDE

ALL PURPOSE / WORKSITE

All-purpose tires driven over any terrain and asphalt too, hauling cargo at a jobsite or driving off-road just for fun. OTR's line-up includes tires preferred and used on OEM equipment that are proven with end users. Some of our most popular models—350 Mag, 350 Super Mag and Prowler—are designed specifically for versatility, ruggedness and comfort.

350 MAG 6

350 SUPER MAG 6

440 MAG 7

TM-440 7

PROWLER 8

OTR'S 350 SUPER MAG is one of our most popular tires. It's hybrid tread design delivers super performance, whether for work or play, with more durability and a comfortable ride.

ROUGH TERRAIN

OTR offers tires designed for extreme off-road use, driving on rocks, up mountains or through deep mud, with extraordinary grip and handling. Newer products such as the Dirt Master and Rock Jaw feature innovative tread patterns, with deep lugs, rock ejectors and mud breakers for self-cleaning. Everything the serious off-roader needs.

350 MAG

350 MAG is one of OTR's best all-around tires, especially for RTV's. Its open, non-directional tread pattern and distinctive diamond-shaped lugs optimize handling and grip, for exceptional performance. It handles heavier loads while providing a comfortable ride, making it a preferred tire for original equipment.

350 SUPER MAG

350 SUPER MAG shares the same shoulder lugs as the 350 Mag for grip and handling—especially in corners—but adds center tread elements to reduce rolling resistance on hard surfaces, such as asphalt, to reduce noise and improve durability. It's also designed to support higher inflation pressures and heavier loads, making it ideal for the worksite as well.

440 MAG

POWERSPORTS

440 MAG delivers a lot of bang, with a design that optimizes traction, stability and ride comfort. Deep lugs—with flat tread blocks—provide excellent traction on soft and hard ground. Lugs are grooved as well, to channel mud and water away from the tire. It's preferred by OEMs and popular tire with end users.

WIZZARD	P. 10	UTILITY	27X10.00-16	16X9

NOTE: More tires and wheels will be available. Consult with your OTR salesperson for more information.

WHEELS

NEVER DOWN will include styled aluminum wheels that can be customized. Consult with your OTR salesperson for more information.

WHAT MAKES NEVER DOWN UNIQUE?

- » Looks and behaves like a pneumatic tire, except it's more durable with a higher load-bearing capacity.
- » No air required, no maintenance, no downtime and no loss of productivity.
- » No issue operating in harsh environments; corrosion-resistant assembly.
- » Keeps running even with a puncture thanks to unique construction and high strength.
- » Better value than alternatives in terms of function and pricing.

REPLACING NEVER DOWN TIRES

In the event a tire is damaged or worn and the user wishes to replace the tire, it will be possible to purchase a replacement assembly. Instructions will be provided for the tire installer in the near future.

TIRE PRESSURE MONITORING

For operators who wish to add air to the NEVER DOWN tire, e.g. applications with grass bags fully loaded with wet grass, as a preventive measure for flat-spotting (as is the case for equipment that sits for a period of time), we've included an LED light on the valve stem that turns red if air is removed as a visible indicator.

SUSTAINABILITY PROGRAM

OTR is working on a program that will allow customers to return damaged tires to an authorized facility for recycling, free-of-charge. This environmentally-friendly initiative, called the Green Disposal Program, means there is ZERO PAIN returning used tires!

POWERSPORTS

CONTACT INFORMATION

- For OEM inquiries contact your local OTR salesperson or send an email to sales@otrwheel.com.
- For aftermarket inquiries, contact your local OTR salesperson or call 800-833-6309 if you are located east of the Mississippi River or 888-455-4910 if you are located west of the Mississippi. You may also email us at sales@otrwheel.com.
- For information on Trans American Rubber tubes, flaps or accessories, contact us at 800-922-8823.

WARRANTY INFORMATION

- OTR provides limited warranty coverage for tires, wheels, tracks and other items in the event of defects in workmanship. You may request a copy of our policy by emailing us sales@otrwheel.com.
- Note that OTR has designated select dealers and distributors to assist with warranty repairs. Contact OTR for more information.

CATALOG DISCLAIMER

Product specifications and information were correct as of the date of this catalog release but are subject to change without notice or obligation. Every effort has been made to ensure the accuracy of this catalog. Consult with your salesperson if you wish to verify data is correct.

ISO 9001: 2015 CERTIFICATION

OTR facilities are ISO 9001: 2015 registered (except for new locations where certifications are in process). ISO ensures consistent product quality, standardization, documentation and compliance with OEM requirements.

REACH COMPLIANCE

OTR's custom tires for OEMs can be designed with REACH compliance. Consult with your salesperson as needed.
